- React Vite

EXPERIENCE

PLURALCODE ACADEMY

FRONT END DEVELOPER

Ikeja, Lagos

Feb, 2023- Present

- Collaborate with cross-functional teams, including designers and back-end developers, to create responsive and engaging websites using HTML, CSS, and JavaScript.
- Translate design mock-ups into functional web pages, ensuring seamless integration of user interface elements and optimal user experience.
- Implement and customize front-end frameworks and libraries, such as React.js, to enhance interactivity and improve site performance.

UI/UX Enhancement:

- Apply best practices in UI/UX design to create intuitive and visually appealing user interfaces.
- Optimize website performance by implementing efficient coding techniques, minimizing load times, and ensuring cross-browser compatibility.
- Conduct thorough testing and debugging to identify and resolve any front-end issues or inconsistencies.
- Responsive Design:
 - Develop mobile-responsive websites that provide consistent user experiences across various devices and screen sizes.
 - Implement responsive design principles and frameworks, such as Bootstrap and Tailwind.css, to ensure seamless adaptability and accessibility.

Collaboration and Communication:

- Collaborate closely with designers and back-end developers to ensure cohesive integration of front-end and back-end functionalities.
- Actively participate in team meetings, providing input and suggestions for continuous improvement and innovation.
- Communicate project progress, challenges, and solutions effectively to team members and stakeholders.
- Continuous Learning:
- Stay up-to-date with the latest front-end development trends, techniques, and tools.
- Proactively expand skillset by exploring new frameworks, libraries, and emerging technologies to enhance proficiency and contribute to innovative solutions.
